Hello,

When I was studying in Washington D.C. and living at a parish there one of the other priests at the parish was from India. One day a parishioner asked me why that priest only bowed at some times during the Mass while all of the other priests she knew genuflected? Good question I thought, he wasn't that old and I didn't think he had bad knees, so I asked him about it. He said that in his culture there were various different bows and while it was our custom to genuflect to Christ present in the Eucharist, it was their custom to have their most profound bow for that honor.

Consider the different postures we assume during Mass, genuflecting, bowing, kneeling, standing and sitting. Do we know why we are doing what we are doing or is it just habit? For myself the greatest understanding of this came when I was growing up in the 1970's when I went to some different churches and noticed some people were genuflecting before going into their pews, and others were bowing. None of them were from India, but was it just different customs? Or were some more holy or pious than others? And then one day I was instructed at a church that was being remodeled that because there wasn't a tabernacle in the worship space we were to bow to the altar where Mass would be celebrated when we entered instead of genuflecting to Christ in the tabernacle in the Eucharist. I know I was probably told that sometime before, but habits had just taken over and when I went into church I knew I was supposed to genuflect but not always thinking about why, but now I knew better. Since then, especially in the 1970's and 1980's when I was going different places and many churches were being remodeled and new ones built I recognized I wasn't the only one who let my habits guide my actions as opposed to always thinking about what I was doing. Sometimes the tabernacle was still in the main body of the church, but it was off to the side, so you had to hunt down the red candle by the tabernacle to realize where you should be genuflecting.

A simple summary for postures is listed in the document *Environment and Art in Catholic Worship*, "sitting for preparations, for listening, for silent reflection; standing for the gospel, solemn prayer, praise and acclamation; kneeling for adoration, penitential rites." (EAW 57) During Mass you may note that the priest genuflects after the Consecration when he shows the Body and then the Blood of Christ to the congregation, recognizing Christ's presence.

From this list, for certain parts of Mass there could be different options, depending on where the emphasis in the action being done is to be placed. That is why another value also needs to be considered, unity. "A common bodily posture, to be observed by all those taking part, is a sign of the unity of the members of the Christian community gathered together for the Sacred Liturgy, for it expresses the intentions and spiritual attitude of the participants and also fosters them." (GIRM, 42) This is in the instructions for celebrating Mass, which I also mentioned to the Indian priest. Since he was going to be staying in the United States he needed to be aware of how some people saw his actions. Explaining them to others could help share his culture, but he also needed to be aware and consider how it could be misinterpreted and the division such small actions can make when deciding if he would continue this practice or not. And of course, others might just think he was getting old and had bad knees.

Peace,

Fr. Nick

Adult Formation

Last Sunday I ended my homilies at the 8, 10, and Noon Masses by praying the *Litany of Trust*. This prayer, written by the Sisters of Life in New York City, is a great prayer to pray when asking that our trust be strengthened. I started praying this prayer three years ago and it has changed my life. Now, more than ever, we need to place our trust in God alone. May we be a people who come to trust in God more and more each day.

Fr. Patrick

Litany of Trust

From the belief that I have to earn Your love ... Deliver me, Jesus.

From the fear that I am unlovable ... Deliver me, Jesus.

From the false security that I have what it takes ... Deliver me, Jesus.

From the fear that trusting You will leave me more destitute ... Deliver me, Jesus.

From all suspicion of Your words and promises ... Deliver me, Jesus.

From the rebellion against childlike dependency on You ... Deliver me, Jesus.

From refusals and reluctances in accepting Your will ... Deliver me, Jesus.

From anxiety about the future ... Deliver me, Jesus.

From resentment or excessive preoccupation with the past ... Deliver me, Jesus.

From restless self-seeking in the present moment ... Deliver me, Jesus.

From disbelief in Your love and presence ... Deliver me, Jesus.

From the fear of being asked to give more than I have ... Deliver me, Jesus.

From the belief that my life has no meaning or worth ... Deliver me, Jesus.

From the fear of what love demands ... Deliver me, Jesus.

From discouragement ... Deliver me, Jesus.

That You are continually holding me, sustaining me, loving me ... Jesus, I trust in you.

That Your love goes deeper than my sins and failings, and transforms me ... Jesus, I trust in you.

That not knowing what tomorrow brings is an invitation to lean on You ... Jesus, I trust in you.

That You are with me in my suffering ... Jesus, I trust in you.

That my suffering, united to Your own, will bear fruit in this life and the next ... Jesus, I trust in you.

That You will not leave me orphan, that You are present in Your Church... Jesus, I trust in you.

That Your plan is better than anything else ... Jesus, I trust in you.

That You always hear me, and in Your goodness always respond to me ... Jesus, I trust in you.

That You give me the grace to accept forgiveness and to forgive others ... Jesus, I trust in you.

That You give me all the strength I need for what is asked ... Jesus, I trust in you.

That my life is a gift ... Jesus, I trust in you.

That You will teach me to trust You ... Jesus, I trust in you.

That You are my Lord and my God ... Jesus, I trust in you.

That I am Your beloved one ... Jesus, I trust in you.

Amen.

"For thus says the Lord: When you call Me, and come and pray to Me, I will listen to you. When you look for Me, you will find Me. Yes, when you seek Me with all your heart, I will let you find Me..."

Prayer

Legion Of Mary

Do you pray the Rosary everyday already? The Legion of Mary NEEDS you. We are in need of full-time Active members and Auxiliary members to join us in the battle for souls.

Our Active members meet every Thursday evening from 7:00pm to 8:30pm and we make home visits throughout the week (due to the Covid-19 pandemic, we are having our meetings on Zoom and have suspended the home visits). We would be delighted to have you join us.

Our Auxiliary members undertake a service of prayer in Our Lady's name; praying the daily Rosary along with a few other prayers on the Legion prayer card, magnifying the glory of God through Mary our Mother. Our Auxiliary members are so vital to the Legion of Mary that without their prayers the fighting forces of the Active members are powerless. Mary is the Queen of the Legion and Mary uses the Auxiliary prayers where they will accomplish most.

If you feel called about praying with us, either as a full-time member or auxiliary member contact Kathy Boyd at (636) 240-6920 or by email at mikebsr8518@gmail.com.

How easy it is, especially in these times, to be consumed by the cares and distractions of the "here and now," forgetting about what matters most — living for the Kingdom of Heaven. The stewardship way of life, with its emphasis on the virtuous use of our Time, Talent, and Treasure, allows us to embrace daily life and all its demands — with eternity in mind.

How do we keep focused on the Kingdom of Heaven? St. Paul shares his secret for an eternity-driven life. In our Second Reading from his Letter to the Philippians, Paul says, *"I know how to live in humble circumstances; I know also how to live with abundance. In every circumstance and in all things I have learned the secret of being well fed and going hungry, of living in abundance and of being in need."* In other words, Paul has learned to live the stewardship way of life.

What is the secret? It is this: *"I can do all things in him who strengthens me."* How? Through this: *"My God will fully supply whatever you need, in accord with his glorious riches in Christ Jesus."* It is so simple! But it is not easy. It takes both courage and humility to live this way. God will supply these to us if we ask.

Frog Legs aren't just for eating!

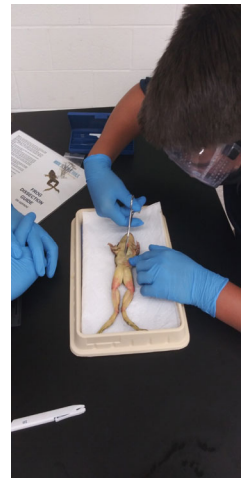

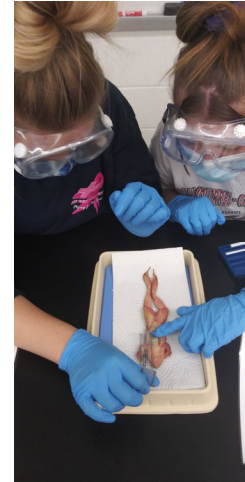

They always say frog legs taste like chicken, and I would have to agree. However, at school we're not eating those frog legs, we are dissecting them. Yes, our Middle School students have studied the various systems of the human body: muscular, circulatory, skeletal, digestive and reproductive systems and are now investigating these systems in

frogs.

We use grass-frogs that are formaldehyde-free and we have them injected with dye so that the veins are blue and arteries are red. This helps our students identify easily the circulatory system. It is interesting for our students because, when dissecting the stomach, they have found beetles, June bugs, and other insects that had been eaten. In addition, they have opened some to find the eggs. They have extracted the brain, eyes, and tongue – and the girls aren't even squeamish - Way to go, girls :-)

Before the pairs of students began dissecting a real frog, Mrs. Schenk, their teacher, had them virtually dissect a frog. Literally, the students went to a website and dissected a frog on the website using their mouse. Each time they cut correctly and identified the part, they were given points. Once completed, students understood the process and were confident to journey into the real world experience of dissecting.

What Matters or What is Matter?

If you would talk to our 2nd grade scientists, they would tell you that objects (matter) can be sorted and classified by properties and that those properties include color, flexibility, hardness, texture, and absorbency. 2nd graders also studied how the properties of materials determine their use.

Here are some of the investigations they completed in class:

While looking at the properties of straw, sticks, and bricks, they had to determine what properties made bricks the best suited to build a house.

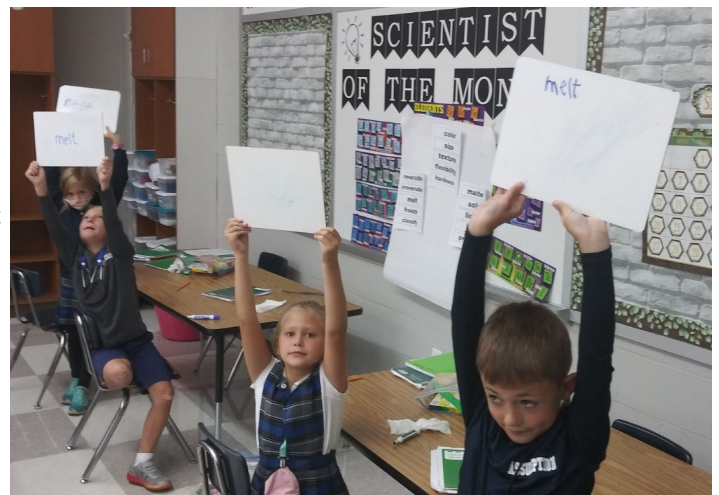

Working together they brainstormed a list of possible structures that could be built with different materials. Then, with students in their groups, they built a small roller coaster where marbles had to roll after being pushed – but the teacher gave each group a different material for building! Once built, it was time to test the roller coasters and compare how the different structures compared in their performance. It was very useful to compare the strengths and weaknesses of the materials used.

Lastly, the students played the quiz game of knowledge. Their teacher, Mrs. Cronin, asked questions and each student wrote his/her answer on their small white board. When everyone was done, they all raised their boards up – to see how they did.

Those smart little cookies knew the answers!

Thanks for reading about our school!
